

SUGAR SHEET™

COPY PAPER

socialprint.com

- Sugar Sheet™ copy paper is manufactured using the residue waste of sugar cane. Converting to 100% tree free Sugar Sheet™ promotes the preservation of global forests and vital ecosystems
- Sugar Sheet™ copy paper looks, performs, and is completely recyclable just like traditional paper
- Sugar Sheet™ is competitively priced with recycled papers. No need to sacrifice paper performance, quality, or pay a premium for sustainability
- Sugar Sheet™ is *the copy paper of choice* by leading Canadian companies, municipal, provincial and federal governments, colleges, universities, environmental organizations, and small to medium size businesses across Canada.

Paper that supports your commitment to sustainable practices

Choosing Sugar Sheet™ paper for your copiers and printers will save one tree for every 2 boxes used.

Sugar Sheet™ paper supports the operations that drive your business

SALES	Sustainability is a key value-added feature for any product or service offering, ensuring sales staff can convey values that resonate with customers.
HUMAN RESOURCES	Sustainability is a powerful message that supports recruitment and retention objectives, bonds organizational culture, and supports an “Employer of Choice” brand.
MARKETING	Sustainability resonates with customer groups, differentiates your brand, and communicates a powerful message that aligns with your customers and community.
OPERATIONS	Sustainability promotes operational efficiency, reduces waste, enhances employee pride, and drives productivity and innovation.
