

Features to look for in a height adjustable table

Height adjustable tables have become a popular choice in today's workspaces. With so many brands and options to choose from, finding a table that satisfies your clients' needs can be challenging – we are here to help!

Below are key things to look for when buying a height adjustable table.

① Motors in every leg

Ensures a smooth, quiet and quick transition.

The upCentric™ features motors made by TiMotion® and takes just 17 seconds to travel the 26.5" range from the lowest to highest height.

② Quick and easy installation

The upCentric is one of the simplest height adjustable tables to assemble. Printed and video instructions make assembling the upCentric easy enough to complete in approximately 15 minutes.

③ High weight capacity

Not to be overlooked as some tabletops alone weigh over 50 lbs, the upCentric can hold up to:

- 2-leg = 300 lbs
- 3-leg = 420 lbs

Likely more than is ever needed!

④ Ability to retrofit existing work surfaces

The sturdy upCentric frame accommodates a variety of different tabletop sizes to make converting existing work surfaces into height adjustable tables a very economical way of obtaining a sit-to-stand solution.
