

Professional Business Laminator

High quality laminator with fast warm-up time and 4-roller system for higher speed and consistent lamination results free of bubbling, wrinkling and curling. Ideal for moderate usage in small to medium sized workplaces where higher productivity and professional quality lamination is important.

Features

- Fast 60 second warm up;
- Audible “beep” when ready to laminate at start up or when film thickness setting changed
- 4-Roller system ensures smooth, professional bubble free finish and fast 24” per minute lamination speed;
- Has 13” entry width
- Convenient detachable output tray;
- Patented Auto Reverse - retrieves jammed or incorrectly inserted documents – manual reverse also included
- Hot and cold lamination option;
- Laminates 3, 5 and 7 mil pouch film;
- Convenient touch screen controls;
- Built-in Cooling Fan and Plate keeps laminator from getting hot, prolongs roller life and keeps laminated documents smooth and cool to touch upon exit;
- Auto shut-off after 30 minutes of non-use;
- Colour: Black & White
