NEW Auto-Retractable Box Cutter – 10503

slice™ introduces the worlds first ceramic Box Cutter with an automatic retracting blade. A revolutionary patent-pending design protects your hands with a unique handle and grip, while the patent-pending double-edged ceramic blades last 10x longer than traditional metal blades. Our ceramic blades are also 10x sharper than traditional metal blades, which results in superior cutting, less exposed blade, and increased safety with fewer injuries. Additional blades are easily accessible via the back of the handle. **New. Safer. Better.**

Features •Ceramic blade •Stays sharp 10X longer than steel •Auto-retracting blade •Easy access blade storage
•Less blade = reduced injuries •Sold with 1 double-edged ceramic blades.

- Large nose area surrounding blade acts as a guard making it more difficult for the finger to come in contact with the blade. No other product has this feature.
- Designed to expose limited blade length ... Only enough needed to get the job done vs competitors longer blade extension creating an unsafe working environment.
- Hooked handle protects hand and knuckles during usage from stray debris (i.e. – carton, staples, etc.)
- Hooked handle allows user to hang knife off of pant pocket or belt loop eliminating the need for a holster reducing of loss in large plant environment.
- Soft touch interior comfort grip reduces fatigue.
- Easy blade storage.
- Quick blade change.
- Rounded tip blades are thicker and safer than standard metal blades.
- Slice ceramic blade lasts 10x longer than standard metal blades.
- Double sided Slice blade equivalent to 10 standard high end metal blades.
- Requires less blade changes (a high risk activity). Less blade changes means less injuries.
- Stays sharp longer ... Sharp blade is a Safe blade.
- Longer blade life and Safer product saves your company money in the long run vs metal blades.

Replacement Blade Pack - 10404

- 4 dual-sided, rounded-tip ceramic blades in convenient carry case.
- A single blade is equivalent to 10 metal blades
- 10x sharper than steel and never rusts
- For use only with slice Ceramic Box Cutters
- Safer than traditional metal utility knife blades
