Tray Glide™/MC

D7.2

Track Conveyor Lubricant

A concentrated, water soluble, heavy-duty lubricant for food service conveyor systems.

Features & Benefits

- Provides excellent lubricity and cleaning
- Conveyor parts remain clean and well lubricated when Tray Glide is used, lessening motor drag and stretch
- Specially formulated to prevent nozzle plugging and expensive downtime
- Cleans as it lubricates
- Minimizes friction, breakage and wear

Applications

- Designed for use on all types of conveyor systems

Suma[®] Tray Glide^{™/MC}

Track Conveyor Lubricant

Use instructions

1. Connect product feed tube to track conveyor system.
2. Start with the recommended dilution and adjust upwards as is needed to account for other factors.
3. If the system is equipped with a product priming mechanism, prime product until product is visible at the product/conveyor contact point.
4. Start track conveyor system and ensure that product is being fed properly.
5. On long runs, extra lubrication points should be installed rather than relying on a higher concentration at a single lubrication point.

In food processing or handling areas, all food products and packaging materials must be removed or carefully protected prior to use. Not for use on food contact surfaces or direct food contact.

Storage: Do not store in food processing or food storage areas.

Product should be stored at a mild temperature. If product becomes frozen thaw at room temperature and, once thawed, gently agitate the sealed container to ensure uniform product.

Technical data	Suma [®] Tray Glide ^{™/MC}
Certifications	CFIA; Kosher
Color/Form	Yellow, Liquid
pH	9.9 (Concentrate) 9.6 (1:99)
Scent	Fatty Acid

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate. Please refer to the Diversey HazMat Library, only available through Internet Explorer, <http://naextranet.diversey.com/dot/>, for up-to-date shipping information.
