

Diversey™

suma® Gloss

K8

Concentrated presoak for silver and stainlessware

Highly concentrated presoak for silver and stainless flatware.

Features & Benefits

- Specially formulated compound penetrates soils quickly and removes tough soils from flatware
- Detarnishing capabilities improves silverware appearance
- Concentrated product provides low end use cost

Applications

- Safe for use on silver and stainless flatware

Suma[®] Gloss

Concentrated presoak for silver and stainlessware

Use instructions

Use this product as directed by your Diversey Representative. Fill bus pan or presoak sink with Suma Gloss presoak solution to the desired level. Dispense solution using the provided Diversey dispenser or dilute manually with a measuring tool. Place stainlessware and/or silverware in solution for several minutes. Remove, rinse thoroughly and wash in dishmachine in normal fashion.

FOR DETARNISHING SILVER: Line bottom of bus pan with aluminum foil. Dispense 1 oz. of product to 5 gallons of water. Place silver in solution. Let soak for 10-15 minutes. Remove, rinse and wash. Never pour this product directly over ware.

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate. Please refer to the Diversey HazMat Library, only available through Internet Explorer, <http://naextranet.diversey.com/dot/>, for up-to-date shipping information.
