International Article Number

134538 (Blue)

Product classification

Dustmopping

Composition

Yarn: Nylon
 Backing: Polyester
 Twill Tape: Polyester
 Tyvek Tag: Polyester

Technical data

	Typical value	Unit
Weight	738 (723 – 753)	g
Length	352 (332 – 369)	mm

Product properties and product usage

- All of our HiStat dust mops have the ability to remove dust without the need for expensive and potentially hazardous dust mop treatments.
- HiStat uses electrostatic properties to attract and hold dust particles.
- Our HiStat dust mops are manufactured from durable specially blended yarn that is sewn onto a durable polyester backing.
- The specially blended yarn allows dust mops to withstand heavy use and repeated commercial laundering with virtually no fraying, tangling, unravelling and linting.
- These mops feature much more yarn fill than competitive mops; therefore, more yarn to control dust.

Storage, transportation and disposal

Keep palletized products in a cold and dry place. Avoid exposure to direct sunlight. Product is not subject to transportation regulations for hazardous substances or chemicals. Disposal via landfill or incineration possible.

QUALITY APPROVALS / COMPLIANCE WITH INTERNATIONAL STANDARDS

This product is manufactured conforming to appropriate standards within FHP Quality System.
