

## FOR A HEALTHY ENVIRONMENT

Mat Tech stays by your side to fight other kinds of enemies that are invisible as well with our **THERMOGRIP** backing : purity never seen before in a vinyl backing and the highest density on the market, this vinyl withstands the most hostile environments. It is non-slip, resistant to oil, and above all, it has antimicrobial properties; 🦠 It prevents the proliferation of germs and mold under the mat. Its antimicrobial properties won't kill Covid-19 but it allows you to continue fighting the virus while Mat Tech mats are working with you on another front. Keep fighting the coronavirus with peace of mind with Mat Tech mats.

The ThermoGrip backing is available on the following products :

Add sanitary messages to those mats to spread the word not the virus!

## ANTI-FATIGUE/INDUSTRIAL APPLICATION

Mat Tech also has a selection of anti-fatigue / industrial products with anti-microbial protection, here they are :

**Anti-microbial Comfort-King:**  
Provides relief from muscle fatigue and a healthy environment

**Foodmaster:**  
The only anti-fatigue mat created specifically for a food environment.

**Little tip:**

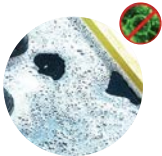

The Foodmaster can also be used in the hospital environment, both surface and backing are antimicrobial.

**Elegance:**  
Combine comfort and elegance with this anti-fatigue mat that will please you.

**Walk-and-clean:**  
For clean room where every particle must be collected at the entrance.

**Boot bath:**  
The disinfectant boot bath is our used mat wherever there is a problem of cross contamination!

(Disinfectant solution is not included with the mat)
