

Foundation

A perfect floor starts here

About this product

Foundation achieves uncommon levels of durability and permanency for total sealer protection for resilient and non-resilient floors. This acrylic copolymer floor sealer is formulated to provide floors with a clear, non-yellowing coating, to enhance the appearance of floor finishes. Water-based, it can safely be used on all types of flooring. Foundation provides a smooth surface for the floor finish application even on worn or damaged floors. An excellent choice for high traffic areas as its fast drying formula keeps the down-time to a minimum.

- Ideal as a base coat for floor finishes
- Excellent slip resistance
- Detergent resistant
- Safe for all types of flooring
- Ideal for dust control for concrete floors
- Protects flooring
- Solvent free – no harmful vapours
- Biodegradable
- No odour
- ECOLOGO Certified (UL 2777)
- Coverage per 4 L is 1600 ft² to 2500 ft²

Why do we recommend using a floor sealer?

Floor sealers are able to protect your existing flooring investment from future abrasions and dirt as well as improve floor safety. They considerably reduce maintenance costs. Sealers are used for building a base before you apply a finish and, given their high solids percentage, they exhibit little or no shine. A sealed, unfinished floor will have a dull or matte appearance.
