1 pod per mop bucket

Upto 15 GAL (60 L)

2 pods per large tanks

Larger than  
15 GAL (60 L)

### FOR USE ON:

Warehouse  
Floors

Concrete  
Floors

Tile  
Floors

### GLDE-322 INDUSTRIAL FLOOR CLEANER

The GLDE-322 is an ultra-strong floor cleaner scrub formulated to rapidly remove oil, grease, soot, wax, stubborn stains, and certain inks and dyes. This pod has a lavender fragrance and can be used on multiple hard surfaces.

### Directions:

Always add the MonoPOD to tank or mop bucket first, then add water. Daily Cleaning: Use 1 pod per mop bucket or automatic scrubber tanks under 15 gal. Use an extra pod for every 15 gal of tank size thereafter. Drop pods into mop bucket or tank then add cold water. Agitating the pod with the water stream will improve mixing. Apply solution to surface with mop or scrubbing machine. Pickup dirty solution with a squeegee, vacuum or mop. Rinsing is not necessary. Add an extra pod for heavily soiled areas.
