

Cold Chain Packaging Products

Recyclable Solutions for Temperature-Sensitive Shipments

CoolPAC® products are the ultimate in thermal protection. Our insulated box liners, masters, pouches, roll stock and pallet covers create the ideal temperature-controlled environment for shipping prepared meats, pharmaceuticals, flowers, cosmetics, chocolates, and so much more. Greatly reduce radiant heat transfer, reduce foam packaging waste, and ship with a quality cold chain solution.

CoolPAC cold chain packaging products:

- Protect against radiant heat intrusion
- Reduce heat infiltration points
- Feature a peel and seal release liner for easy closure
- Protect against freezing during winter months
- Take up less space in the warehouse
- Are available in custom sizes
- Are made with materials that are FDA approved for food contact
- Greatly reduce D IM weights compared to traditional coolers and insulated boxes
- Are recyclable through the Thix® Recycling Program
