

Poly CS540A Headset with handset lifter TAA

Hands-free productivity

The CS540 convertible DECT™ headset provides professional performance so you can get more done – even on the move. The noise-cancelling mic reduces background noise interruptions, ensuring great audio quality and easing listener fatigue.

Give everyone more freedom to move

Everyone in the office could use more flexibility. Let them roam confidently up to 400 ft from the headset base. They'll be able to collaborate simply since teams can conference up to four headsets on a single base.

The choice is yours

There's more than one way to make a call – switch up styles to find your groove and introduce your ears to something new. The CS540 convertible design comes with three wearing options: over-the-ear, over-the-head, behind-the-head¹.

It's just easy

Simplify desk phone management with headset audio controls and adding either the HL10 Handset Lifter or Electronic Hook Switch Cable (EHC) for remote call capabilities.^{2,3}

Extended range and talk time

The adaptive power system optimizes for range and talk time by automatically downshifting to low power when the headset is close to the base – saving battery life and maintaining maximum density.

SoundGuard technology

SoundGuard acoustic limiting technology protects against Acoustic Shock by limiting sounds to below 118dBA ensuring listening comfort and protection against audio spikes.

Superior audio quality

Your choice of narrowband audio to extend talk time or advanced wideband audio for high – definition voice quality. Enhanced Digital Signal Processing (DSP) provides more natural sound, delivering clear audio the way it's intended to be heard.

Poly CS540A Headset with handset lifter TAA

Specifications

Connectivity and communications

Wireless range: Up to 120 m
Wireless range (Imperial): Up to 350 ft
Connection type: DECT™
Headphone type: Convertible

Audio

Speaker bandwidth: 20 Hz to 6.8 kHz (narrowband or wideband)
Nominal sound pressure level: 118 dB SPL

Battery

Battery life: Up to 7 hours (talk time)
