Poly Studio Medium Room Kit for MS Teams: Studio USB Video Bar with GC8 (ABA) (9C992AA)

Overview

Smarter rooms, better meetings

Elevate virtual meetings with AI-driven features for immersive collaboration. Enjoy high-resolution video, noise-blocking, smart camera framing, and a secure conferencing PC in Microsoft Teams Rooms. Experience the future with Poly Studio Room Kits [1].

A better way to meet and share

Poly Studio Room kits for Microsoft Teams Rooms give you distraction-free meetings with innovative Poly camera tech. From focus to large conference rooms, stay productive with technology that empowers the whole team, wherever they work.

Peace of mind you can call on

Our Poly+ device support team is available 24/7, across the world. This extensive global network of support professionals help you confidently plan and successfully deploy Microsoft Teams Rooms.

Engineered for your enterprise

It's easy to make every Poly Studio Room a Microsoft Teams Room. Certified and purpose built, this cutting-edge meeting solution fits perfectly into office workflows, offers a consistent user experience and is simple for IT to setup.

Features

Smart + intuitive meetings

Make sure everyone is seen clearly with Poly DirectorAI smart camera technology. Its fast and accurate people, group, or speaker framing modes deliver an unrivaled video experience.

Be free to focus

Let clearer audio do the talking with Poly NoiseBlockAI and Acoustic Fence technologies. This noise-eliminating, smart technology blocks distractions and prevents noise from interrupting the flow of your team's discussions.

Up close and professional

Feel like you're face-to-face on both sides of the call. The 4K high-resolution camera sensor captures the entire room with life-like video and everyone in it with total clarity.

Security that means business

The powerful and secure conferencing PC is protected from malicious attacks at the BIOS level so you can deploy your solution with total confidence.[1]

Microsoft Teams certified

The Microsoft Teams Devices Certification Program ensures all devices meet the performance standards and quality metrics across the entire user experience — audio, video, and interface.
