

Orbit

All System Floor Finish

Applications:

Preparation: Before your initial application, the floor must be stripped of any old finish, rinsed thoroughly with potable water and allowed to dry. Sealing the floor is recommended prior to applying a floor finish.

Application: Using a clean mop and bucket, apply 1-3 coats (depending on the porosity of the floor) allowing the floor to dry completely between coats, at least 30 minutes or more.

Maintenance: Dust and/or wet mop daily. Spray buff as needed. For best results, after damp mopping with a neutral floor detergent, apply Orbit diluted at 1:4, let dry for 30 minutes then burnish the floor. Burnishing daily is highly recommended but not imperative.

Benefits:

- Long lasting high gloss shine
- Excellent slip resistance
- Detergent resistant
- Non-yellowing
- Safe for all types of flooring
- Good levelling
