# Product Compliance Datasheet

**MARKETING NAME/MODEL NO: Alienware PRO Wireless Gaming Mouse, PRO-MS**

**REGULATORY MODEL…..…..: PRO-MS, PRO-M-D**

**REGULATORY TYPE……..…: N/A**

**EMC EMISSIONS CLASS…...: B**

**EFFECTIVE DATE[1]……..…...: January 11, 2024**

**REVISED DATE[2]……..…..: None**

## Table of contents

I. Statement of Compliance ..... 2
II. Global Environmental Information ..... 3
III. NFPA 99 Conformity ..... 3
IV. Power Cords and User Documentation ..... 3
V. Trade (Import/Export) Compliance Data ..... 3
VI. Product Dimensions and Weight ..... 4
VII. Product Energy Performance Data ..... 4
VIII. Product Materials Information ..... 4
IX. Packaging ..... 5
X. Batteries ..... 6
XI. Design for Environment ..... 6
XII. Recycling / End-of-Life Service Information ..... 6
XIII. Helpful Links ..... 6

[1] Effective Date refer to product that is available to market (RTS/Launch)
[2] Revision Date refer to the Datasheet has been updated to capture the latest information

# I. Statement of Compliance

This product has been determined to be compliant with the applicable standards, regulations, and directives for the countries where the product is marketed. The product is affixed with regulatory marking and text as necessary for the country/agency. Dell manufacturers and markets Multimedia Equipment (MME), Information Technology Equipment (ITE), Audio Visual Equipment (A/V), Industrial, Scientific, Medical Equipment (ISM) or combinations of these. Generally, products Electromagnetic Compatibility (EMC) and Product Safety compliance is based on International IEC and CISPR standards and their national equivalent along with national standards for Radio (wireless), Telecommunications (Modem) and Energy. Dell products have been verified to comply with the Restriction of Hazardous Substances (RoHS) Directive 2011/65/EU of the European Parliament and the Council. Dell product does not contain any of the restricted substances in concentrations and applications not permitted by the RoHS Directive.

EMC Emissions Class refers to one of the following use environments:

- EMC Class B product is intended for use in residential/domestic environments but may also be used in nonresidential/non-domestic environments.
- EMC Class A product is intended for use in non-residential/non-domestic environments. Class A product may also be utilized in residential/domestic environments but may cause interference and require the user to take adequate corrective measures.

For Product Safety and EMC compliance, this product has been assigned a unique regulatory model and regulatory type that is imprinted on the product regulatory labeling to provide traceability to the regulatory approvals noted on this datasheet. This datasheet applies to any product that utilizes the assigned regulatory model and type including marketing names other than those listed on this datasheet. Dell products with the CE marking have been verified to comply with Energy Related Products (ErP) Directive 2009/125/EC of the European Parliament and of the Council. https://www.dell.com/ErP User Information. REACH (Registration, Evaluation, Authorization and Restriction of Chemicals), Regulation (EC) 1907/2006 of the European Parliament and of the Council is the European Union's (EU) chemical substances regulatory framework. Dell complies with the REACH regulation. For information on SVHC (Substances of Very High Concern), see www.dell.com/REACH. This products compliance documentation, such as this datasheet and the European Union Declaration of Conformity are available on the product support page, manuals tab http://www.dell.com/support. Additional compliance documentation for the product is available upon submitting a request at https://support.dellproductcompliance.com Please include product identifiers such as marketing name, regulatory model, regulatory type, and country that compliance information is needed in the email request.

# II. Global Environmental Information

| Environmental (Voluntary Marks) | | |
|---|---|---|
| **Country** | **Approval** | **Compliance** |
| Varies by Country See EPEAT.net | EPEAT (Configuration Dependent) | According to Desktop/AIO Country requirement where product will be sold (For only bundled with Desktop/AIO) |

Adapter / Battery Charger Certification and Declaration (if product uses adaptor / battery charger)

| Adapter Certification and Declarations | |
|---|---|
| **Country** | **Authority/Mark** |
| Australia/New Zealand | Australia/NZ MEPS |
| Canada | NRCan |
| US – California | CEC / DOE |
| European Union | Regulation EC No 278/2009 |
| South Korea | South Korea MEPS |

# III. NFPA 99 Conformity

Select Dell systems have been tested and found to comply with the touch current requirements as defined in 10.3.5 of National Fire Protection Association standard NFPA 99:2021. The touch current does not exceed 100 µA with ground wire intact (if a ground wire is provided) and 500 µA with ground disconnected at 127 V AC, 60 Hz when tested in accordance with 10.3.5 of NFPA 99: 2021. To determine if this product complies with the above requirements, send a request to https://support.dellproductcompliance.com. Please include product identifiers such as marketing name, regulatory type and country for which compliance information is needed.

# IV. Power Cords and User Documentation

Dell products are provided with the power cord and user documentation suitable for the intended country of delivery. Products that are relocated to other countries should use nationally certified power cords and plugs to ensure safe operation of the product. Contact Dell to determine if alternate power cords or user documentation in other languages is available for your market.

# V. Trade (Import/Export) Compliance Data

For any questions related to importing & exporting classification of Dell products, please obtain information from the following link: http://www.dell.com/learn/us/en/uscorp1/import-export or send email request to WW_Export_Compliance@dell.com. Please include product identifiers such as marketing name, regulatory model, regulatory type, and country that compliance information is needed in the email request.

# VI. Product Dimensions and Weight

Please refer to product specifications or user guide or manual at Dell website,

www.dell.com

# VII. Product Energy Performance Data

| Service Level | Energy Consumption (Wattage) | Description of Service Level |
|---|---|---|
| ***Maximum** | N/A | The system is running at its max power consumption |
| **On** | N/A | The appliance is connected to a power source and is performing one or more of the following modes: produce sound, wake-up signal, or play a tape or disc. |
| **Off** | N/A | The appliance is connected to a power source, does neither produce sound nor performs any mechanical function (e.g. playing, recording) and cannot be switched into any other mode with the remote control unit, an external or internal signal |
| **External Power Supply "No-Load" (if applicable)** | N/A | AC adapter connected to mains with system detached otherwise known as "No-load" condition. |

# VIII. Product Materials Information

Information on Dell's material use is available here.
Dell's Restricted Material for Use guidance document is available here.

| | |
|---|---|
| Mechanical plastic parts are BFR/PVC free | ☒ **Yes** ☐ **No** ☐ **NA** |
| Marking of plastics parts is in accordance with ISO 11469 (see below) | ☒ **Yes** ☐ **No** ☐ **NA** |
| Printed circuit boards (without components) >0.5g are BFR PVC free | ☐ **Yes** ☒ **No** ☐ **NA** |
| Insulation materials of external electrical cables are PVC free | ☐ **Yes** ☒ **No** |
| Product is BFR/PVC Free (Accessories & Options may not be BFR/PVC-Free | ☐ **Yes** ☒ **No** |
| Postconsumer recycled Plastics material content[3] is used in the product<br><br>If yes, indicate the percentage of the postconsumer recycled material per total plastic weight of the product | ☒ **Yes** ☐ **No** ☐ **NA**<br><br>**78.4 % PCR (Post Consumer Recycled) material in total plastic of product** |

[3] This product contains x% post-consumer recycled plastic including closed loop recycled plastics (ITE-derived)* % Declaration to be the same in ENV0025 for Display & CP

| | |
|---|---|
| Biobased Plastic material[4] content is used in the product.<br><br>If yes, either indicate the percentage of the biobased plastic material per total plastic weight of the product | ☐ **Yes** ☒ **No** ☐ **NA**<br><br>**0 % biobased plastic material in total plastic of product** |

**Flame Retardants Used in Motherboard**

| Part | List the Flame Retardants |
|---|---|
| PCB[5] | **Brominated-Epoxy** |
| PCBA[6] | **Halogen(BR/CL) Flame retardant** |

**Flame Retardants Used in Mechanical Plastic Parts[7]**

The external case material is >ABS<

| Resin Material Name | Plastic Part Marking per ISO 11469:2016 | Flame Retardant Marking per ISO 1043-4 (i.e. FR(16), FR(40), etc.) | List the Flame Retardants used on (i.e. BPA, etc) | List applicable R-Phrase(s) or Hazard Statement(s) per EU Directive 67/548/EEG or 1272/2008 |
|---|---|---|---|---|
| ABS | >ABS< | N/A | N/A | None |
| PC | No marking | N/A | N/A | None |

**Additional information:**

- Refer to Dell Technologies' Chemical Use Policy for more information on RoHS and REACH.
- Products MSDS (Material Safety Data Sheets):
  - Batteries: Battery MSDS Documentation and Declaration
  - Printer Toner and Ink: MSDS Documentation

# IX. Packaging

Information on Dell's sustainable packaging effort available here. Additional materials restricted in Packaging as per Dell's Material Restricted for Use Standard document can be found at www.dell.com/restrictedsubstanceslist.

[4] Bio-based plastics are fully or partially made from biological resources, rather than fossil raw materials. They are not necessarily compostable or biodegradable. It is important to examine the full life cycle of bio-based plastics, to ensure that they are beneficial to the environment beyond the reduction in use of fossil resources. This includes littering and changes in land use

[5] PCB (Printed Circuit Board) is a blank circuit board with no electronic components attached

[6] PCBA (Printed Circuit Board Assembly) is a completed assembly that contains all of the components required for the board to function as needed for the desired application

[7] According to ISO 11469 Marking of plastics products weighing 25 grams or more must be marked. Plastic Parts weighing less than 25 grams and having adequate surface area for coding should be marked.

| Packaging Materials | Total Weight of each Packaging Material (kg) | % Post Consumer Recycled Material[8] used | % Pre-Consumer Material [9]used |
|---|---|---|---|
| Carton box (Corrugated Fibred Board) | 0.04 | 80 | 0 |
| Paper box (Paper board) | 0.17 | 0 | 0 |
| Plastic Bags - LDPE | 0.0044 | 0 | 0 |

# X. Batteries

Below is a listing of batteries that could be present in the product:

| Battery Description – Batteries | Battery Type | Battery Weight (kg) | Rating |
|---|---|---|---|
| Rechargeable Battery x cell | Lithium Ion | 0.0074 | 1.369Wh |

# XI. Design for Environment

Dell systems are, when applicable, designed for easy assembly, disassembly, and servicing. For more information on Dell's Environmental product attributes click here.

# XII. Recycling / End-of-Life Service Information

Take back and recycling services are offered for this product in certain countries. If you want to dispose of system components, please visit How to Recycle | Dell Technologies US and select the relevant country.
