

# HP Presence Small Space Solution with Microsoft Teams Rooms (668U3UT)

## Be in the room from any room

Adaptive AI-enhanced audio and engaging controls make virtual meetings more personal. HP Presence Small Space Solution with Microsoft Teams Rooms<sup>[3]</sup> interacts intuitively with users providing an intelligent meeting experience and delivers useful real-time analytics back to IT.<sup>[5,6,8]</sup>

### Windows 10 IoT Enterprise

#### Empower small spaces

Remove barriers to conferencing and connect your workforce with the HP Presence Control with Audio, HP Presence Mini Conferencing PC, and HP Smart Set Up for huddle and small rooms.

#### Bring people together

Enjoy room-filling Audio by Bang & Olufsen, calibrated to your surroundings during setup. The HP Presence Control with Audio with dedicated audio processing blends into your space with an ergonomic design that compliments any room.

#### Quickly report issues

Report a room issue in two seconds. Remove the friction of reporting room issues like missing chairs, dry markers, trash, temperature issues, and more to IT, facilities, or the café admin with HP Presence Room Assistant.<sup>[9]</sup>

### Featuring

#### Protected by HP Wolf Security

HP Wolf Security for Business protects the BIOS with a hardware-enforced, always-on, resilient defense.<sup>[19]</sup>

#### Wake your system on entry

Your HP Presence conferencing system utilizes HP Meeting Ready detection when you enter the room to wake your system so you can quickly start your meeting.

#### Stand up and be heard

HP Dynamic Voice Leveling automatically enhances microphone gain to optimize voice clarity within 3-meters of the microphone. HP AI Noise Reduction uses noise-filtering technology to enhance audio and video conferencing experience even while wearing a mask.

#### HP Rapid Echo Cancellation

Remove echo for participants not in the room with HP Presence microphones equipped with HP Rapid Echo Cancellation.

#### HP Auto EQ Calibration

HP Smart Setup automatically optimizes the audio to the room size and location of HP Presence devices with HP Auto EQ Calibration.<sup>[20]</sup>

**Technical Specifications Footnotes**

[1] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.windows.com>.

[2] For full Intel® vPro® functionality, Windows 10 Pro 64 bit, a vPro supported processor, vPro enabled chipset, vPro enabled wired LAN and/or WLAN card and TPM 2.0 are required. Some functionality requires additional 3rd party software in order to run. See <http://intel.com/vpro>.

[4] Due to the non-industry standard nature of some third-party memory modules, we recommend HP branded memory to ensure compatibility. If you mix memory speeds, the system will perform at the lower memory speed.

[6] Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

[7] Intel® Turbo Boost performance varies depending on hardware, software and overall system configuration. See <http://www.intel.com/technology/turboboost/> for more information.

[8] All memory slots are customer accessible/upgradeable.

[9] For storage drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 30 GB (for Windows) of disk is reserved for system recovery software.

[11] Guest mode will not be available using the front USB-C® port or using the rear DisplayPort™ port on the HP Mini.
