Why We Recommend This Brewer

No matter how you may enjoy your coffee, Fresh Cup always brews it to perfection and allows each cup to be specially brewed to three personal strengths: mild, medium or bold. Your coffee profiles are easily programmable and provide complete control over the critical brewing parameters: pre-infusion, brew volume and water contact time.

FEATURES

One Touch brew activation.

Brew Time is under a minute with the press of a button leaving no reason to leave the office for specialty drinks again.

New Pump Design reduces noise when the equipment is brewing and provides superior control.

Programmable Recipes - CX-3 includes 98 preset recipes to choose from. Simply select the recipe you would like to use and assign it to one of the 9 buttons.

Earth Friendly - Not only do PODS brew delicious cups of coffee and tea, but they are also biodegradable.

Removable Drip Tray provides the cup clearance for travel mugs.

Taste Individual single portions of coffee (PODS) provide the most aromatic and enjoyable taste experience over other capsule based systems.
